

## Poster Presentation Instructions

### Important:

For this year's edition of the HORATIO Festival, we will not ask presenters to print the poster; instead, we will be exhibiting the posters on 24inch monitors which will be connected to a tablet. All posters have to be presented in PDF format. So, you don't have to worry about printing, just send us the poster in PDF format and we will upload it accordingly on the screens.

Email to: [horatiomalta2017@gmail.com](mailto:horatiomalta2017@gmail.com)

### Suggested Guidelines:

1. In the planning of your poster presentation remember that the poster will be available for viewing and discussion for several hours. Wording should be readable from a screen three feet away. The poster should be understandable without oral explanation.
2. When planning your poster presentation, aim for clarity and simplicity. Make an initial rough layout, keeping in mind the proportions of figures, tables, and text.
3. Be clear and concise in all statements. Include your objective, the design/methods, the results and conclusion. The objective of the work should be stated. Experimental details should be concise. Tables and conclusions should be clearly stated.
4. The temptation to overload the poster with excessive text and data should be resisted. Where possible, organize tables and figures chronologically in vertical progression.
5. It is helpful to bring handouts of your poster to pass out to those who are interested.
6. Presenters are expected to discuss their work with delegates visiting their poster.
